PODGORICA

At CUE Podgorica, our focus is not only to be recognised as the best hotel in Podgorica but also to continuously work on being socially and environmentally responsible towards the community in which we operate. We are fully committed to reduction of the impact we have on the environment by implementing a lasting strategy that is built on the protection of the environment.

Taking care of the environment is in the core business function of CUE Podgorica, therefore we will continuously improve our performance in identifying and reducing wasteful practices, preserving natural resources, including sustainability aspects into our day to day business activities. This also means engaging all stakeholders: guests, visitors, colleagues and suppliers and have them actively contribute to the environmental protection actions.

Sustainable environment that we are striving to achieve, will deliver important long-term benefits by protecting and maintaining stable environments that include environmental, sociocultural, quality, health, safety and similar. Many actions that improve sustainability will also result in medium-term or long-term savings which, as a result can be reinvested – again in the environmental purposes.

Being a member of Green Key, shows our devotion to our sustainable goals and we will continue to fulfill them, simultaneously providing our guests with utmost experience and service.

ENVIRONMENTAL POLICY

At CUE Podgorica, our focus is not only to be recognised as the best hotel in Podgorica but also to continuously work on being socially and environmentally responsible towards the community in which we operate. We are constantly looking for different ways of preserving natural resources by reducing waste and energy consumption whilst providing our guests with utmost experience and service.

With this statement, we are fully committed to:

REDUCING, REUSING, RECYCLING

We strive to minimise the impact of our operations on the planet by reducing our waste as much as we can, recycling whenever possible,

reusing or donating materials and by raising awareness around us whilst maintaining high quality standards for our guests.

REDUCING WATER CONSUMPTION AND CONSERVING ENERGY

We proactively work on practical and technical solutions that are continuously improving our

energy and water consumption. We monitor our performance and set goals we follow.

BEING RESPONSIBLE TOWARDS OUR LOCAL ENVIRONMENT

- We comply with all Montenegrin laws and legislation regarding labour, human rights, health and safety and the environment.
- We are dedicated to raising awareness and encouraging our employees, business partners and suppliers to keep their impact on the environment as low as possible.
- We inform our guests about the hotel's social and environmental actions and encourage them to actively participate in achieving our goals.
- We are always looking for new suppliers who are socially and environmentally engaged and who share the same values as us towards the environment.

By setting up actions and communicating our efforts to our guests and to all our stakeholders, we encourage them to join us in performing simple practises in order to reach our goals and protect the environment.

Our message is clear: if you improve something in your local environment, it will be projected to other companies and individuals around you.
